TX 12/35

THE RAISING POWER

TX

The TX series stackers are characterized by manual traction and electrohydraulic lifting technology. These stackers are very steady and are suitable for lifting very heavy loads safely. Version 12 (1.2 t) includes polyurethane wheels as standard to reduce resistance and effort required even with full load capacity.

START KEY AND BATTERY CUT-OFF (ISOLATOR) SWITCH

The start key on the TX stacker performs a double function:
• switches the stacker on/off;
• is an emergency control, i.e. it completely stops battery power supply and thus prevents the lifting of forks.

FOOT BRAKE

The foot brake performs the parking brake function.

TILLER

The ergonomic tiller allows an excellent directionality of the machine, thanks to a steering system on both rear wheels.

ADJUSTABLE BUFFERS

The TX 12 version is equipped with adjustable buffers that minimize possible oscillation during lifting.

PROTECTIVE COVER

It allows an easier access to the battery housing for faster ordinary maintenance.
