SPECIFICATIONS

Linktower LED light tower

The Linktower is one of the most innovative and revolutionary models in the Generac Mobile® range! The **Linktower LED 4x240W** is a mobile light tower that can be powered by an external power source like a power generator, the main, or another light tower with a built-in generator.

Linkable model

The main feature of the **Linktower LED** is that up to 3 units can be connected in series to a single power source, providing a big illumination area with reduced fuel consumption.

Easy handling

Thanks to the practical manual hand trolley, the lightweight, and the new jockey wheel, a single operator can handle the **Linktower** quickly and safely in every kind of working area.

Access lockable doors

The new **Linktower LED** has **two lockable doors** to access the inside of the body for documents and tools storage.

New stabilizers

A new model of robust and easy **stabilizer** to perfectly level the light tower in seconds.

Rain cover design

The new frame of the **Linktower LED** is designed to better protect the control panel from rain.
